CDI Scientific Seminar Series 2016-2017

Join us for “Third Thursdays” 12:00-1:00pm in Moss Auditorium (A2-342 MDCC)

Sep.15.2016  James D. Cherry, M.D., MSc., Distinguished Research Professor, Pediatric Infectious Diseases
Topic: Infection, Inflammation & Immunity
“The history of Pertussis (whooping cough): Mistakes made during a 110 year odyssey and what some of the mistakes bode for the future”

Oct.20.2016  Anil Sapru, M.D., Associate Professor, Pediatric Critical Care
Topic: Infection, Inflammation & Immunity
“Acute respiratory distress syndrome: How can we design better clinical trials?”

Nov.17.2016  Daniel Levi, M.D., Professor, Pediatric Cardiology
Topic: Neonatal Health & Development
“Development of biodegradable stents and Patent Ductus Arteriosus closure devices for small infants”

Dec.15.2016  John Adams, M.D., Distinguished Professor, Orthopaedic Surgery
Topic: Nutrition, Metabolism & Growth
“Immunobiology of Vitamin D”

Jan.19.2017  Karin Nielsen, M.D., M.P.H., Professor of Clinical Pediatrics, Pediatric Infectious Diseases
Topic: Infection, Inflammation & Immunity
“Zika virus: Mother to child transmission – what is known to date?”

Feb.16.2017  Donald B. Kohn, M.D., Professor, MIMG, Pediatrics, Molecular and Medical Pharmacology
Topic: Cancer & Regeneration
“Hematopoietic stem cell gene therapy: Progress and challenges”

Mar.16.2017  Peter Butler, M.D., Professor, Medicine (Endocrinology)
Topic: Nutrition, Metabolism & Growth
“Mechanisms of beta cell loss in diabetes”

Apr.20.2017  Elizabeth Marcus, M.D., Assistant Professor, Pediatric Gastroenterology
Topic: Infection, Inflammation & Immunity
“Helicobacter pylori infection and gastric injury”

May.18.2017  Christopher Giza, M.D., Professor, Pediatric Neurology & Neurosurgery
Topic: Brain & Behavior
“Is being plastic fantastic? Mechanisms of recovery after pediatric traumatic brain injury”

Jun.15.2017  Loris Hwang, M.D., M.S., Associate Professor, Adolescent & Young Adult Medicine
Topic: Infection, Inflammation & Immunity
“Adolescent cervical maturation and biological vulnerability to sexually transmitted infections (STIs)”

This series is supported in part by a Catalyst Award from the UCLA Clinical and Translational Science Institute (CTSI; NIH/NCATS grant #UL1TR001881).

The UCLA Children’s Discovery and Innovation (CDI) Institute, established through initial philanthropic funding to Mattel Children’s Hospital UCLA and the Department of Pediatrics at the David Geffen School of Medicine at UCLA, encourages multidisciplinary child health research and research training at UCLA across the spectrum of basic, translational, clinical, and health services research. For more information, including details about seminar updates, please visit the CDI Institute website: www.uclahealth.org/cdi or contact:

Candace J. Wilkinson, Ph.D. | Scientific Officer, UCLA CDI Institute | cwilkinson@mednet.ucla.edu | 310.794.4336
