UCLA RESEARCH STUDY

Do you have chronic obstructive pulmonary disease (COPD)?

UCLA is looking for people with COPD for a research study.

You may be eligible for the study if you:
- Have a history of moderate or severe COPD
- Are between 40 and 80 years of age
- Are a current or former smoker that has smoked for more than 10 pack years

Participation lasts about 3 months and 2 visits that will include study-related breathing tests, physical exams, questionnaires, walking tests, and specimen collection at no cost to qualified participants.

You will be reimbursed for your travel and related expenses.
